  - 6) Pay the balance due before the artist leaves the event. The balance can be paid by cash, or check.

**Helpful Bridal Suggestions:**

- Leg waxing/sugaring or shaving should be done 2-4 days before henna. Doing this after your henna is done will impede the color results.
- Pedicure and manicures should be done the day or morning before the henna day. Please skip all massage oils, and body oils as this can impede color results.
- Do not do any heavy rubbing, housework, kitchen work, nor have excessive contact with water.

- Please make sure to rub our Aftercare Henna Balm all over the areas where the henna designs are to ensure best results.
- Please wear comfortable clothing to do your henna in.
- Remove your contacts, if this applies, before getting your henna done.
- Keep your henna overnight, and warm for best results.
- Henna stains will be bright orange at first, and darken within 24-48 hours to reach peak color results of deep reddish-brown and up to dark cherry tones.

**Henna Sooq guarantees:**

- 1) The henna will be of the highest quality.
- 2) The henna paste will contain henna, lavender essential oil, fructose, and lemon juice.
- 3) The henna paste will NOT contain para-phenylenediamine.
- 4) If there is an emergency such that Khadija is not available, she will provide to the client contacts of one or more other henna artists who can provide the same quality of services.

**Henna Sooq cannot guarantee:**

- 1) That the henna stains will be equally dark on every person. Hand lotions, spray-on tanning products, other oils and cosmetics, after care, as well as stress may cause henna to stain a lighter color. Proper aftercare is very important to ensure darkest stain results.
